**Re. Availability of Proposed Transmitter Site**

To Whom It May Concern:

The Grendel Group, current owners of the property located at 3768 2<sup>nd</sup> Ave. Smithers BC, has agreed to host the antennae tower and transmitter of the Smithers Community Radio Society. We have witnessed the positive impact that the Society has had on the community with regard to their developmental license, and fully support their application for a license to operate an English-language FM community radio undertaking in Smithers BC.
